B. Eng. Software Engineering - Internship Program

McGill University

April, 2023

Montreal, QC

- 3.64/4.0 GPA
- Undergraduate Coursework: Software Engineering Practice, Software Delivery, Software Validation, Distributed Systems, Model-Based Programming, Databases, Algorithm and Data Structures

DEC Informatics and Mathematics

Collège Bois-de-Boulogne

May, 2019

Montreal, QC

- 32.6 Cote R (top 10%)

WORK EXPERIENCE

Développeur iOS & macOS

Druide Informatique

June 2023 – present

Montréal, QC

- Objective-C, Swift, C++
- Augmented the iOS and macOS applications by building a dynamic, responsive and intuitive user interface
- Implemented a data collection system, for commercial use, by making a trace users' workflow
- Cooperated with other development teams for the creation of new features
- Interacted with a C++ backend server to convey the relevant data through the application
- Performed tasks to ensure the technological health of the products such as creating tickets through Jira, respecting the development workflow (code reviews, merge requests, etc.) and participating in the daily standup meetings

Full Stack Software Engineering Intern

O-possum Solutions

May 2022 – Aug. 2022

Blainville, QC

- JavaScript, ReactJS, Java, SpringBoot and SQL.
- Enhanced the user and transaction history display systems by implementing filtered search.
- Upgraded a visualization system for sales to allow the creation of statistics, tables and graphs based on different criteria such as the date, the payment method (credit card, online, ...), etc.
- Created API endpoints or used existing ones to create new features in the dashboard web application.

Full Stack Software Engineering Intern

O-possum Solutions

May 2021 – Aug. 2021

Blainville, QC

- Java, SpringBoot and JavaFX
- Refined the identity access management to better limit the permissions of cashiers based on their authority.
- Implemented a checkout feature to allow tracking the number of clients present in the center.
- Increased the usability of the point of sales application by including relevant error messages
